EQUIPMENT OF LIQUID PRODUCTION

**BEFA** **OPTION HCV**

Certified DIN EN ISO 9002

## Technical data:

<b><u>production area</u></b>		<b><u>filling equipment</u></b>	
2 units	Preparation tanks, 2000 litres each including paddelstirrer and geared motor	1 unit	volumetric filler with 6 dosage cylinders
1 unit	Brine-Tank with stirrer and motor	1 unit	presettling tank with level regulator and pneumatic valve
3 units	pumps G 90 for high viscosity	6 m	conveyor
1 unit	pump PAS 110, brine pump	1 unit	capper
1 unit	Electronic container scale	1 unit	pneumatic screwer
1 unit	watermeter	1 unit	labelling machine (two sides)
3 m	2" textural hose	1 unit	collecting table
	pipng incl. valves	1 unit	cardboard box folding unit
		1 unit	cardboard box sealing machine
<b><u>storage area</u></b>			
6 unit	VA2 storage tanks, 7500 L each	1 unit	Piston compressor
1 unit	pump G90 BY, for high viscosity, incl. ByPass		
1 unit	Pump G90 for high viscosity		
6 m	1" textural hose		
	pipng incl. valves		
	fastening and support material
